## KUBE

## PROFESSIONAL VACUUMS

The KUBE vacuum cleaner allows you to combine strong suction power with double stage filtration that prevents clogging. Works with any power tool max 1500 w. The suction starts when the tool is turned on and continues for a few moments after the power tool is turned off thanks to the integrated AUTO STOP function to ensure the suction of residues.

**POWER****1,4 kW****CAPACITY****27 Lt**

**TECHNICAL DATA****ENGINE**

Suction type	by-pass
Voltage	230 V
Maximum vacuum	2200 mBar
Maximum air flow	180 m3/h
Engine	1
Frequency	50 Hz
Power	1,9 HP

**PRIMARY FILTER**

Type	cartridge
Class EN 60335-2-69	M Class
Filter cleaning	automatic vibration

**MACHINE**

Dimensions	400 x 400 mm
Height	750
Weight	14 Kg
